ENDURANCE

21ST JUNE 2026

DoningtonPark

A VERY WARM WELCOME TO DONINGTON ENDURO.

Wow! It was only a few weeks ago I was penning the introduction to our season opener at Donington, and here we are, back again, but this time in a totally different format from our usual offerings. This is the first time in our club's history that we have allowed refuelling mid-race and only our second meeting featuring true Endurance races (our first being Anglesey 24 hours in 2022). With a fresh idea and the support of the circuit team and Motorsport UK we have altered the pit lane entry to make use of the Melbourne Loop, so that competitors may choose to refuel using the petrol station, or continue into the pit lane. It's a fascinating, new concept here, though one that is similar to that used in the Spa Six Hours.

I won't go into too much detail here, except to say that with two compulsory 6 minute pit stops, one to include refuelling, team strategy, as well as reliability and pace on the track will play a huge part in deciding winners. Keep an eye on TSL Timing, it promises to be an exciting adventure for us all. In addition to our pair of 2 hour and 1 minute endurance races, we have our regular 40-minute race format for our Adams and Page Swinging Sixties, and our pair of 15 minute races for our R-Werks Special Saloons & Modsports.

I always sign off by wishing everyone present a safe and enjoyable days racing, and today is no different, but I must also express my thanks to all teams and drivers giving this new format a try. Hopefully if this is successful, we may consider trying to make this a more regular feature in future years.
